

Testing. Advising. Assuring.

CERTIFICATE No : SFC 54480500.1 Page 1 of 1

Report Sponsor	Certificate Issue Date	Product Name
Concept Products 26 Catalano Road Canning Vale WA 6155	31/07/2018	Millboard® decking boards

Assessment Report Reference	Referenced Standard	Report Issue Date	Report Validity Date
EWFA 54480500.1	AS 1530.8.1- 2007	31/07/2018	30/08/2023

#### Introduction

The element of construction described below was assessed by this laboratory on behalf of the report sponsor in accordance with the stated test standard and achieved the results stated below. Refer to the referenced test report(s) or Regulatory Information Reports for a complete description of the assessed construction.

#### Assessed Millboard decking system description and performance

Millboard® decking system Description	BAL
The scope of the assessment includes the bushfire resistance performance of a decking system comprising 176mm wide x 32mm thick Millboard® decking boards and 190mm wide x 42mm thick Kwila (Merbau) fascia boards.  Refer the referenced assessment report No. EWFA 54480500.1 for a complete description of the assessed construction.	BAL: A19

#### Conditions/Validity

- THIS CERTIFICATE IS PROVIDED FOR GENERAL INFORMATION ONLY AND DOES NOT COMPLY WITH THE REGULATORY REQUIREMENTS FOR EVIDENCE OF COMPLIANCE.
- Reference should be made to the relevant test report or regulatory information report to determine the applicability of the test result to a proposed installation. Full details of the constructions and justification for the conclusions given, along with the validity statements, are given in the assessment reports.
- The assessment report or short form assessment report does not provide an endorsement by Exova Warringtonfire Aus Pty Ltd of the performance of the actual products supplied. It is intended to provide a brief outline of the above referenced assessment reports and not to replace them.
- The conclusions in this certificate of assessment relate to the configurations as detailed, and should not be applied to any other configuration. The conclusions expressed in this document assess fire hazard, but it should be recognised that a single test method will not provide a full assessment of fire hazard under all conditions.
- Full copies of the assessment and relevant test reports may be obtained from the sponsor.
